

Who knows best where to eat local, wild and fresh fish ??

PREPORUČILI RIBARI
fishermen recommend

Why “Fishermen recommend“?

- To help our local fishermen to better sell their fish

How?

- Restaurants are the most important fish distribution channel in our FLAG area.
- By distinguishing the restaurants that sell local, wild and fresh fish from the ones that are selling imported fish (mostly from outside EU) with suspicious origin and quality and is being mislabelled as a local fish.
- Establishing our area as a tourist destination with exceptional gastronomy based on fishery products.

Tourists in 2018.: 430.000 arrivals / 2.500.000 nights

[Meet the fishermen] Nino Mrvica, brod Lucija, Vodicke, mali pribralni ribov. "Podrijetom sam sa otoka pa mi je more i ribarstvo u genima. Valjda zato nisam ni mogao izabrati drugi zivotni put. More me opušta i dok ribarim se osjećam ispušteno. Ribarim zajedno sa ocom koji mi je velika potpora i uživam u trenucima koje provodimo zajedno na pučini dok se nadmudrujemo s ribom."

"Everything happened, my brother, what I Uredivano We sailed werr on the deep sea. Came back safely to our island."

This is what the great Renaissance writer Petar Hektorović from island of Hvar wrote in his book "Ribanje i ribarsko prigovaranje" in which he accompanied fishermen for three days at sea. This book was written in the 16th century and is thus the testimony of long Croatian fishery tradition.

www.fishermen-recommend.com

- **So far 26 fishermen joined and 12 restaurants**
- **We taught locals where to eat local wild fish and they are passing this information to tourists**
- **Local and national medias are covering our programme and doing interviews and articles about fishermen**
- **Fishermen job - demistified**
- **Fishing job has become more desirable - It was wrongly perceived as something that is very difficult and needs special skills.**
