EVALUATION OF FISHERY PRODUCTS

Main Objectives

- ▶ To promote local aquaculture products;
- ▶ To establish a long-term quality system that will provide consumers in Slovenia with insight into the quality of fish products produced in Slovenia;
- ▶ To enable producers of fish products to check the quality of their products.

EVALUATION OF FISHERY PRODUCTS

Main Activities

- Training on sensory evaluation of food quality by Biotechnical Faculty in Ljubljana
- 2 sensory evaluations of local fish products at the BF in Ljubljana
- Local quality label developed to classify local products
- Brochure on the importance of fish meat
- 2-day field trip to fisheries in Austria
- Culinary workshops
- 2 Promo events in Ljubljana (announcement of results)

ADDED VALUE

„Healthy“ comparison of local
fish products based on objective
criteria,
and increased value of these
products based on improved
quality.
