The main goals of the project The Best Fish is the Posavje fish are:

- To improve awareness of the importance of fish in healthy nutrition.
- To increased interest in supplying fresh and high quality Posavje fish.
- To increase the direct marketing of fresh fish by organisation of the sales area on a local market and purchasing equipment for mobile fish market.
- The integration of Posavje aquaculture farms and Posavje elementary schools will focus on the integration of fish into school nutrition.
- To increase knowledge, interest and care for wild fish in the natural environment of watercourses through more educational activities and public involvement.
