As Confrarías da Ría de Vigo, Pontevedra e Arousa presentarán este venres os avances do proxecto 'Mellora da gobernanza na xestión pesqueira artesanal no ámbito do Parque Nacional Islas Atlánticas, un acto que terá lugar na sede da Federación Provincial de Confrarías de Pontevedra en Arcade.

Trátase dunha xornada que ten como obxectivo dar a coñecer o proxecto -financiado pola Consellería do Mar a través de Grupos de Acción Local de Pesca (GALP) e coordinado pola Federación Provincial de Confrarías de Pontevedra-, e fomentar a participación dos actores implicados.

O proxecto pretende "reforzar o papel das comunidades pesqueiras no desenvolvemento local e na cogobernanza dos recursos pesqueiros no ámbito do Parque Nacional Islas Atlánticas, buscando sustentabilidade social, económica e ambiental", así como "aumentar os lazos de colaboración entre o sector pesqueiro, administracións, comunidade científica, organizacións ambientalistas" e outros entes.

Con este obxectivo, realizaranse distintas actividades, como recompilar, analizar e divulgar información tanto sobre a importancia das distintas formas de pesca e marisqueo, coma acerca da dependencia que as comunidades pesqueiras teñen das augas do Parque Nacional.
